

We've made some temporary changes to our Community Mental Health and Learning Disability services in response to the COVID-19 situation

Routine, non-emergency outpatient appointments will be postponed. Telephone support will be available to our patients

If you feel your mental health is deteriorating, you can call your Community Mental Health or Learning Disability Team's Duty Desk for support

Depot appointments will continue to take place, you will be contacted by your Care Co-ordinator to confirm arrangements

Prescription scripts will now be posted to patients. Patients will be asked to call their Community Team to confirm they have been received
